Hvad skal ske i HAPPI?

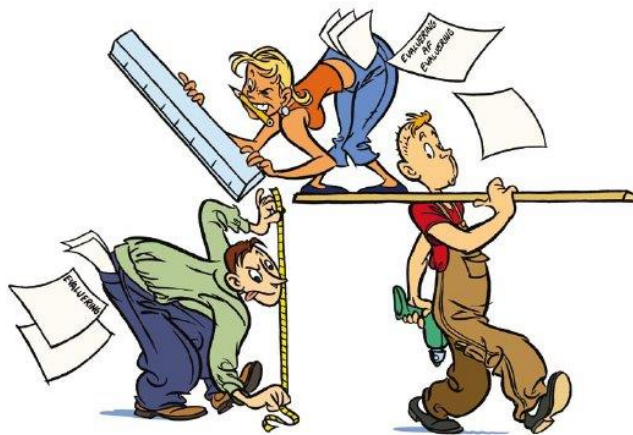

Hvordan kan energirenoveringer finansieres?

- Fælles udbud
- ESCO

Hvordan kan energirenoveringer identificeres og planlægges?

- Energiscreeninger
- Energistrategier

Hvordan inddrager og informere vi beboerne bedre i processen?

- Information til beboerne
- Energistrategier

Energiledelsesprofiler

The image displays four overlapping energy profile cards, each representing a different apartment association. The cards are arranged in a staggered, overlapping fashion from bottom-left to top-right. Each card features a stylized illustration of a living room with a sofa, a lamp, and a window overlooking a cityscape. The cards are titled as follows:

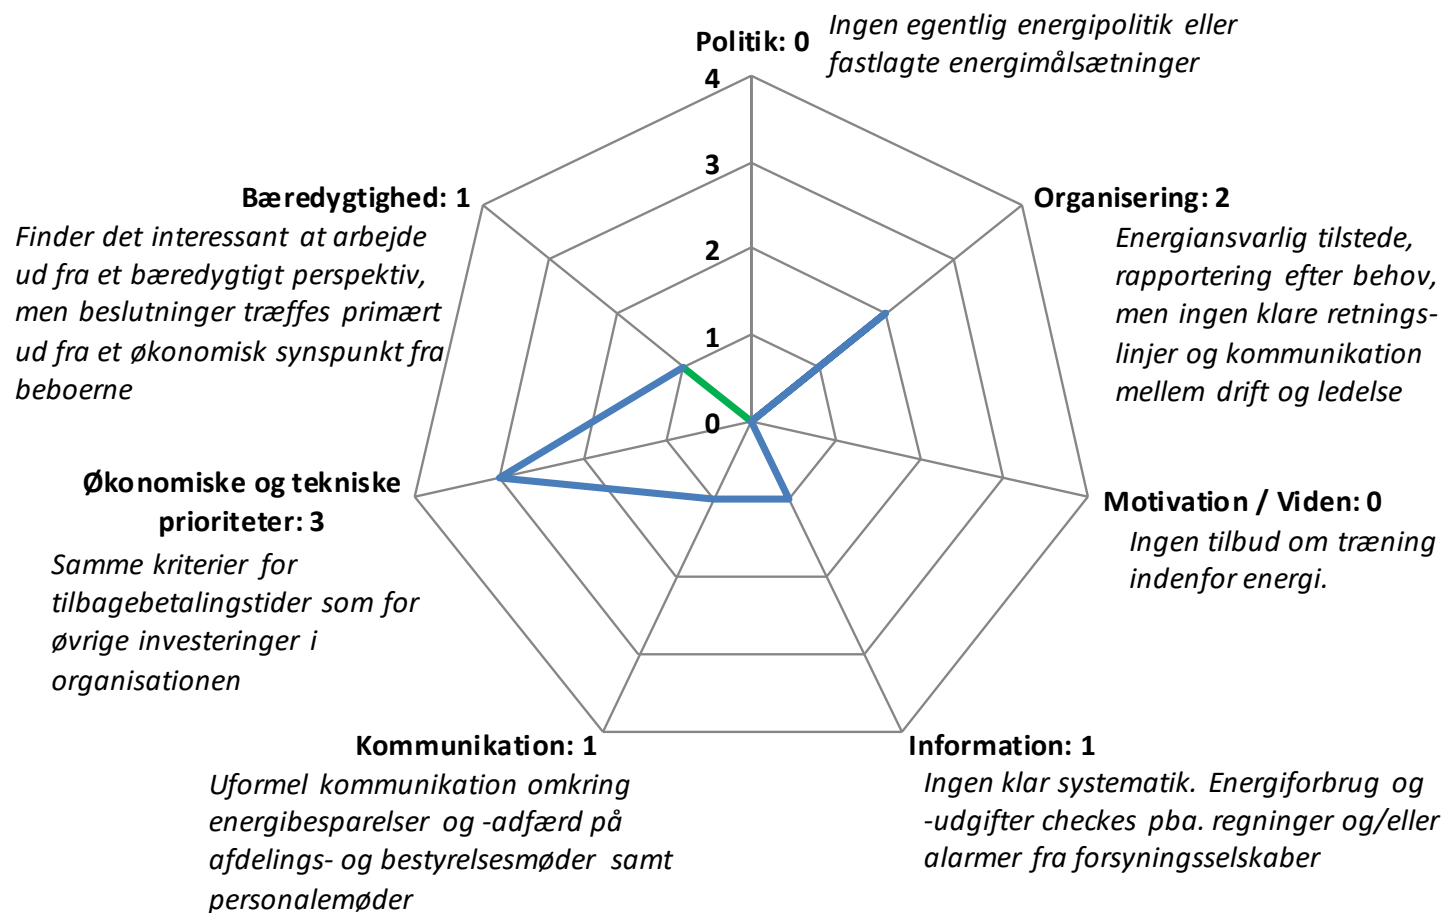

- ENERGILEDELSESPROFIL NORDBORG ANDELSBOLIGFORENING** (Logo: NiB)
- ENERGILEDELSESPROFIL BOLIGFORENINGEN B42** (Logo: House icon)
- ENERGILEDELSESPROFIL BOLIGFORENINGEN SØBO** (Logo: SB logo)
- ENERGILEDELSESPROFIL SALUS BOLIGADMINISTRATION** (Logos: SALUS, Gråsten, DANBO, S A B)

Each card also includes the date "December 2018" and various logos of partners and funding sources. At the bottom of the overall graphic, there are logos for Happi, DEM, and a row of human icons.

Strategien

Energi- og bæredygtighedsstrategi 2019

Sønderborg Andelsboligforening

Vision

Hovedbestyrelsen har vedtaget at strategien for Sønderborg Andelsboligforening, skal tage udgangspunkt i følgende visioner:

- At være med til at hjælpe Sønderborg kommune med at opnå CO2 neutralitet i 2029.
- At boligerne skal være så energineutrale som muligt
- At bidrage aktivt i implementering af ny teknologisk viden og energiforbedringer ved renovering.
- At vi ved nybyggeri tager højde for biodiversitet og miljø eks igennem LAR-projekter.
At byggerier opføres som DNGB-certificerede byggerier.
At vi overvejer mulighed for genanvendelse af byggematerialer ved cirkulært byggeri og fokus på miljø og bæredygtighed i hele leverandørkæden indtænkes.
- At oplyse og inddrage beboerdemokratiet, så de tager ejerskab for strategien og dermed aktivt deltager i arbejdet.
- At bidrage aktivt til regeringens plan/målsætning om CO2-begrænsninger ved anvendelse af el-biler, f.eks. ved udbredelse af El-ladestandere el.lign.

Billedet er lånt: <https://www.projectzero.dk/da-DK/TopPages/Om-Proje>

“Bæredygtighed en udvikling hvor opfyldelsen af de nulevende generationers behov ikke sker på bekostning af fremtidige generationers mulighed for at opfylde deres behov.”¹

Bæredygtighed betyder altså, at du ikke lever på jorden på en måde, der går ud over dine børn og børnebørn.
